MFG. of : Wood Working Machinery

SUNDARAM CORPORATION

FROM MD'S DESK :-

Dear Friends,

Welcome to the world of "Sundaram Corporation"
It is my proud privilege to introduce Sundaram corporation , a leading name for manufacturing high quality wood working machinery in India. Sundaram Corporation is registered company, has now emerged as a key player in the market for manufacturing indigenously designed world standard wood working machineries, backed by a professional team with knowledge, experience and creativity.

We had laid certain goals and objectives for the company, when we started our operation in the year 2010. Looking back since then, we can derive a sense of satisfaction that the company has been able to tread the path of growth & development. It has not only achieved a turn around in its profitability, but also reached out to a larger number of customers in the domestic & export markets.

Our product portfolio is like finger joint press, finger cutting, cold press, wood panel composer, circular trolley cutter, wood crusher, dust collector, frame corner and wide range of machines for wood working.

We also undertake Turnkey Projects along with all related utilities.

We are a customer focused company and believe in delivering high quality products with cost effective solutions. As such, our constant endeavor is to give more value to the customer's money through innovation & modification. To this end we have our R & D division, devoted to meet technology challenges that are encountered from time to time.

We have an excellent team of professional employees and talented engineers ready to render services to the complete satisfaction of our clients. Come let us join hands for progress towards growth & prosperity.

Sincerely,

SUNDARAM TEAM
